KHANSA EHSAN

Lahore, Pakistan| +92 307 558 8497 | itskhansaehsan@gmail.com | linkedin.com | github.com | Portfolio

PROFESSIONAL SUMMARY

Early-career full-stack developer (B.S. Computer Science) building web apps with Angular, React, TypeScript, Node.js, MongoDB, and SQL Server. Experience in REST APIs, authentication, and role-based access. Dedicated to clean architecture, good performance, and shipping code that is ready for production.

TECHNICAL SKILLS

- **Frontend:** Angular, React, TypeScript, JavaScript, RxJS, Redux Toolkit
- **Styling:** HTML5, CSS3, SCSS, Tailwind CSS, Responsive Design
- **Backend:** Node.js, Express.js, REST APIs, API Integration, Upstash
- **Databases:** MongoDB, Mongoose, SQL Server, Azure SQL, Sequelize
- **Security & Rate-Limiting:** JWT in HttpOnly cookies, CORS, Zod validation, bcrypt, Arcjet rate-limiting and bot detection
- **Tools & DevOps:** Git, GitHub, npm, Postman, Azure App Service, Vercel, Netlify, Render
- **CMS/SEO:** WordPress, WooCommerce, Elementor Pro, On-Page SEO, Backlink Building
- **Practices:** Responsive Design, Agile/Scrum, Clean Code
- **Learning:** TypeScript (advanced), Next.js, Python

COLLABORATIVE & CLIENT WORK

Viewdu | Collaborative Marketplace Project | 2025 - 2026 *Angular, TypeScript, i18n*

- Contributed to Angular interface and design work and an i18n translation service.
- Assisted with selected database and backend tasks while collaborating with an experienced engineer.

WordPress Website Support | Men's Store and Dulha House (Paid Client Work) | 2024

- Customized and maintained a WooCommerce men's store, including Elementor Pro content and on-page SEO updates to metadata, headings, and keywords.
- Completed off-page backlink work for Dulha House

PROJECTS

University Resource Hub | Solo Portfolio Demo *Angular 22, TypeScript, Node.js, Express, Azure SQL, Sequelize, JWT* **Live | (2026)**

- Built and deployed an equipment-booking demo with Student, Teacher, and Admin roles, booking-conflict checks, waitlist promotion, and QR/code check-in.
- Secured API access with JWT in HttpOnly cookies, Zod validation, and bcrypt password hashing; deployed the frontend on Vercel and the backend on Azure App Service.

Flowcodify | Final-Year Team Project, Backend Developer *React, Node.js, Express, MongoDB, React Flow, Konva.js, and AI Integration* **Live | (2026)**

- Developed backend routes, authentication, MongoDB models, CRUD operations with ownership checks, and error-handling middleware for a visual-to-code platform.
- Implemented rate limiting, server-sent events (SSE), payment/admin workflows, and OpenAI API integration.
- Generated code for Python, JavaScript, C++, and HTML/CSS with automatic formatting
- Added an AI chat assistant to help with code improvement, debugging, and explanations

Subvio | Personal Project, In Development *Node.js, Express.js, MongoDB, JWT, Brevo, Arcjet, Render, Upstash, Stripe*

- Developing a subscription tracker for recurring services, renewal dates, and spending, with scheduled reminders and Stripe Checkout.
- Added Arcjet middleware for per-IP rate limiting and bot detection to block brute-force and scraping attacks.

Brandless Watches | Personal Frontend Project *React, CSS, React Hooks* **Live**

- Built a responsive storefront with searchable product filters, product detail pages, and a browser-persisted cart; checkout is a demo flow

EDUCATION

B.S. Computer Science |University of the Punjab, Lahore *2022 – 2026*
GPA: 3.56 / 4.0 | Coursework: Web Engineering, Data Structures, OOP, Software Engineering

CERTIFICATION & LANGUAGES

Full Stack Developer Certification (A+ Grade) **(2024)**
English: Professional | **Urdu**: Native
